

THE GREAT BIG GREEN WEEK

Saffron Walden will be hosting a festival of events celebrating the environment and the natural world during the national Great Big Green Week

18th- 26th September

As the UN conference on Climate Change in Glasgow draws near, join us to celebrate the delicate balance of nature and learn what we need to do to preserve it.

Extreme weather events and catastrophes around the world are getting increasingly common, with growing risk to human life. What are the scientists telling us? What do we need politicians to do at COP 26? What can we all do to give us a chance of survival?

Enjoy, Learn and Celebrate!
